

REACH YOUNG PEOPLE THROUGH CREATIVITY

An essential training for all people working with young people

Small World Arts Workshops

5 days June - 21 to 25 - 2010

£250

This course will enable practitioners and support staff to engage young people and promote personal development through practical art and craft activities. Small-World Arts Workshops can be done almost anywhere with inexpensive, recycled or free resources and will suit a range of abilities. Projects deliver fast results or can be made more complex to suit the client group.

Students will be able to set up and deliver small-scale arts workshops designed to be accessible and achievable by all, promoting opportunities for successful results.

A hands-on approach will be used to investigate practical techniques and processes, always reflecting the needs of the student by being responsive and flexible.

We will explore four different activities: driftwood sculpture; shadow puppets; kite-making; environmental art or lantern making (depending on weather).

Pre Booking is Essential
